DESCRIPTION

Here is a shorter, smoother, and more polished version (about half the length): A new luxury residential complex of 289 apartments and townhouses in Cádiz, perfectly located between the Club House and the Fairmont Hotel, with stunning views of the golf course, the sea, and the Rock of Gibraltar. This gated, low-density development offers 2-4 bedroom homes with parking, storage, and exceptional communal amenities: infinity pools, gym, sauna, kids' club, coworking areas, library, and café. Designed for a privileged lifestyle, it ensures maximum comfort with underground parking access, security systems, and direct access to the beach. Bright panoramic terraces, Mediterranean sunsets, and a natural, tranquil environment make it ideal as a holiday home, year-round residence, or investment. With quick access to the AP7/A7 and all essential services—marinas, golf courses, hospitals, schools—and close proximity to Gibraltar, Jerez, Málaga, and their airports, it offers the perfect balance between serenity, nature, and connectivity. Surrounded by world-class golf courses such as Valderrama, Almenara and Sotogrande, this is an exceptional enclave for sea and golf lovers. **INFORMATIONS** REFERENCE OR CODE
